Dear Nurse Practitioner,

I'm Roberta Heale; an NP and researcher working at Laurentian University in Sudbury. I'd like to invite you to participate in a research study. The purpose is to better define the nature of the NP relationship with their patients/clients. This includes developing a better understanding of such things as the characteristics of your clients (ages of clients, types of conditions), how clients become part of your practice, and the type of interactions you typically have with your clients.

The benefits of this study are the potential for better knowledge of the nature of the relationship between the NP and clients which has the potential to inform how we market the NP role to the public and how we educate NPs and organizations about the NP role in health care.

If you agree to participate, I'll interview you by zoom.

If you are interested, please email me at rheale@laurentian.ca. I'll send you more information and a consent form.

Many thanks,

Roberta Heale
