

You are invited to a presentation entitled:

Helping Your Patients with MDD

A Journey to Wellbeing

This program is designed to provide healthcare professionals with the tools necessary to help set patients living with depression up for success. It discusses how to answer common patient questions once they start therapy, how to communicate effectively and how to empower patients towards better self-care.

Development Faculty

Dr. Atul Khullar

Psychiatrist, Associate Clinical Professor,
University of Alberta

Dr. Jeff Habert

Family Physician, Assistant Professor,
University of Toronto

Dr. Graham Mansell

Family Medicine, Synergy Wellness Centre,
Alberta

Dr. Marie-Claude Garant

Family Physician, Quebec

Program Objectives

This program is an OLA (other learning activity) that will allow participants to:

- Improve the diagnosis and management of MDD in a traditional or virtual environment
- Address patients' frequently asked questions regarding the use of antidepressant medication
- Discuss lifestyle changes that have the potential to enhance the benefit of antidepressant treatments
- Empower the patient to play an active role in their own treatment
